

ID Logistics embraces Bio-CNG and takes delivery today of its first two IVECO Stralis NP road tractors running on Bio-CNG

Cavaillon, 31 May 2017 - At today's *Forum des Solutions Ecoresponsables - Logistique Froid Innovation* event devoted to ecofriendly initiatives for innovation in the cold chain, IVECO formally handed over the keys to ID Logistics' first two trucks running on Bio-CNG. Bio-CNG is a compressed natural gas derived from fermenting biomass, which sets it apart from extractive fossil fuels (such as oil).

Receipt of these two trucks fits with the Group's ongoing drive to reduce the CO₂ emissions of its road haulage activities.

These two IVECO Stralis NP road tractors running on Bio-CNG are the first 400hp trucks to be delivered to ID Logistics. With their large cab and automated transmission with 12 gears, they combine a high level of drivability with low fuel consumption. With a total capacity of 920 litres, the 8 CNG tanks provide range autonomy of over 500 km. They are powered by the new Cursor 9 gas engine that emits practically no particles and has gained Piek's Quiet Trucks certification at 71 db(A). As a result, they will help to safeguard the population's health and living standards in the Paris region. They are capable of transporting a 28-tonne payload, and since they run on Bio-CNG (recovered from waste), their carbon footprint is guaranteed to be smaller than that of a small city car.

Six more road tractors will join the fleet over the next few weeks. They will all be assigned to operations in the Paris region for Carrefour, one of ID Logistics' longstanding clients, for which the Group is rolling out this new fleet running on Bio-CNG, to provide an ecofriendly sourcing and distribution solution.

By year-end 2017, 20% of ID Logistics' fleet will run on natural gas for vehicles, which includes CNG, Bio-CNG and LNG.

ABOUT ID LOGISTICS

ID Logistics is an international contract logistics group, with revenue of €1,070 million in 2016. After the Logiters acquisition, ID Logistics has more than 275 sites across 16 countries, representing close to 5 million square meters of warehousing facilities in Europe, Latin America, Asia and Africa, and 18,500 employees. With a client portfolio balanced between retail, industry, detail picking and e-commerce sectors, ID Logistics delivers high-tech solutions and is firmly committed to sustainable development. ID Logistics is listed on Compartment B of NYSE Euronext's regulated market in Paris (ISIN Code: FR0010929125). The Group is managed by Eric Hémar.

ABOUT IVECO

IVECO is a brand of CNH Industrial N.V., a World leader in Capital Goods listed on the New York Stock Exchange (NYSE: CNHI) and on the Mercato Telematico Azionario of the Borsa Italiana (MI: CNHI). IVECO designs, manufactures and markets a wide range of light, medium and heavy commercial vehicles, off-road trucks, and vehicles for applications such as off-road missions.

The brand's wide range of products include the Daily, a vehicle that covers the 3 – 7.2 ton vehicle weight segment, the Eurocargo from 6 – 19 tons, the Trakker (dedicated to off-road missions) and the Stralis, both over 16 tons. In addition, the IVECO Astra brand builds off-road trucks, rigid and articulated dumpers as well as special vehicles.

IVECO employs close to 21,000 individuals globally. It manages production sites in 7 countries throughout Europe, Asia, Africa, Oceania and Latin America where it produces vehicles featuring the latest advanced technologies. 4,200 sales and service outlets in over 160 countries guarantee technical support wherever an IVECO vehicle is at work.
