

## /// PRESS RELEASE

### A new anniversary for ID Logistics: 3 years of logistics activity in Romania

**Bucharest, 14<sup>th</sup> of October, 2020, 03.00 p.m.**

On October 1st, ID Logistics celebrated three years of activity in Romania. In addition to this anniversary, the year 2020 came also with a change in its top management, ID Logistics Group promoting Paul Niță as General Manager.

"Every year in October we are happy to add another year of successful activity to the company's history in Romania. It is a pleasure to stop for a few moments from our daily work and celebrate with our partners and colleagues. In 2020, although it was a year full of challenges, we managed to constantly grow, starting operations for another important retail platform and developing transport services "said Paul Niță.

"I am proud to have with me a team of strong people, passionate about their profession. We, the ID Logistics family, guide ourselves every day according to the company's values and try to actively contribute to the development of logistics activities. We demonstrate seriousness and innovation, at any level we are within the organization. At the same time, we strongly believe that we must first of all offer flexibility and a quick response to the clients' demands, but at the same time maintain the quality of the services we offer "added Paul Niță.

ID Logistics continued in the third year its business strategy on the Romanian market, with a development in the retail field, intending to further expand both in this segment and on FMCG, high-tech, fashion, cosmetics and e-commerce, where he has solid experience worldwide.

ID Logistics is an international logistics service provider, established in 2001 in Cavaillon, France, by Eric Hemar. In its 19 years of existence, the company has rapidly expanded at global level in Europe, Asia, Africa and South America, through direct expansion or through acquisition of top logistics companies. The last country opened is USA, where ID Logistics entered through the acquisition of Jagged Peak, a company specialized in e-commerce and multi-channel logistics. ID Logistics Group recorded revenues of 1.534 billion euro last year, 9% more than the previous year. It currently employs 21,000 people serving 320 operations in 18 countries, totaling approximately 5.8 million square meters of storage space.
