## ID LOGISTICS TAKES OVER THE OPERATIONS OF THE AUCHAN DISTRIBUTION CENTRE IN ŁĘDZINY, POLAND

As a major player in contract logistics, ID Logistics is strengthening its cooperation with Auchan Poland, a long-standing customer. In charge of a warehouse of the brand in Mszczonów (central-eastern Poland) for more than 8 years, ID Logistics will now take care of the operations of the distribution center in Łędziny (south-west of the country), from where deliveries are shipped to points of sale in southern Poland.

With a surface area of 54,000 m<sup>2</sup> and 470 employees, the Auchan warehouse in Łędziny has been operational since 2022. Its opening responds to the need to reorganize the brand's logistics in Poland and optimize its supply chain. The site is dedicated to the storage of dry and fresh food products as well as products requiring temperature-controlled storage (dairy products, meat, fish, fruits and vegetables). Cleaning products, household products, textiles and furniture are also stored there, all destined for Auchan hypermarkets, supermarkets and small shops located in the south of the country.

### ID LOGISTICS BECOMES THE NEW OPERATOR OF THE ŁĘDZINY SITE

At the Łędziny site, ID Logistics is in charge of receiving deliveries, warehousing, stock management, loading, distribution and transit (direct shipment to stores). The logistician's mission also includes product labelling, including Polish labels on imported goods.

*"The Łędziny site is the first warehouse to respond to Auchan's omnichannel strategy. Therefore, it is important that its entire organization operates in line with the latest technologies and with a modern management focused on satisfying the needs of our customers. In order to ensure operational continuity, develop the service offering and fully exploit the capacity of this warehouse, we decided to change logistics operator. That's why we chose ID Logistics, which has already been managing our warehouse in Mszczonów for eight years."* - **Mariusz Gawęda, Senior Manager of Logistics Operations at Auchan Poland.**

*"Our goal is to proactively support our customers in the development of their business and provide them with the best quality of service, thanks to our experience and excellent knowledge of the market. We are delighted that Auchan Poland, a long-standing customer, trusts us to manage another distribution centre that is of key importance to its supply chain. This new operation also strengthens our leading position in contract logistics in the distribution market."* - **Sylwia Dunn, Business Development Director at ID Logistics Poland.**

Orgon, May 2nd 2023

*"A committed team, modern solutions and the ability to adapt warehousing processes to the specificities of the different stores, will allow us to ensure efficient and timely delivery. After three months of taking over the warehousing operations of the previous operator, we are operational to handle all the expected tasks."* - **Marek Dzumyk, Director of the Łędziny Distribution Center.**

In order to gain efficiency, in compliance with health and safety standards for its employees, ID Logistics has implemented, within the warehouse, several adapted technological solutions such as a voice order preparation system.

In addition, as part of Auchan Poland's strong environmental approach, ID Logistics has chosen to promote sustainable and low-emission solutions within the warehouse. These aim to reduce energy consumption, waste production and the carbon footprint of all logistics activities on site. Thus, the Łędziny site has obtained the BREEAM certification of very good level. ISO and IFS (International Food Standard) standards are also respected by the logistician in all its activities.

## **ID LOGISTICS AND AUCHAN POLAND, PARTNERS SINCE 2015**

The Łędziny site is the second Auchan Poland warehouse, managed by ID Logistics. The first, located in Mszczonów, with an area of 47,000 m<sup>2</sup>, is dedicated to the storage of industrial products (cosmetics, cleaning products and household products) but also foodstuffs that do not require controlled temperatures. This site distributes Auchan stores in the North of the country, as well as e-commerce orders.
