ID LOGISTICS INAUGURATES ITS 1ST SITE IN THE UNITED KINGDOM AND NOW OFFERS COMPLETE EUROPEAN COVERAGE FOR ITS INTERNATIONAL CUSTOMERS

ID Logistics, an international contract logistics group, announces the opening of its very first site in the United Kingdom, as part of a logistics services business start-up on behalf of an international fashion retailer leader. Located in the strategic area of Northampton, between Birmingham and London, the site is entirely dedicated to the management of return flows.

A FIRST ACTIVITY IN GREAT BRITAIN, DEDICATED TO RETURN ORDERS

Thanks to its expertise in the e-commerce and textile sector, ID Logistics was chosen by a big worldwide fast fashion group to guarantee a smooth and efficient management of returns, thus meeting the customer's expectations in terms of quality of service. This new contract extends the partnership already achieved in Poland through the Polish company Spedimex, recently acquired by the ID Logistics Group.

The 18,000 m² site, which began operations in June 2023, will employ more than 300 employees. Its activity only concerns the return flows of e-commerce and B2B orders, with a key issue of responsiveness. The products, subject to fashion trends, are processed in a very short time in order to be quickly put back on the market.

ID LOGISTICS UK: BREAKING INTO THE BRITISH MARKET

The opening of a new subsidiary in the United Kingdom is highly strategic for the Group. As one of the largest logistics markets in Europe, it offers considerable opportunities for business development. Thus, ID Logistics intends to develop its business quickly in this new environment thanks to the trust of several international customers, particularly in the fields of consumer goods and e-commerce.

"We are delighted to open our first site in the UK, an important step in our growth strategy in Europe. This investment demonstrates our commitment to meeting the needs of our large international customers by offering comprehensive coverage of the European market. We look forward to working closely with them and providing high quality logistics solutions to support their business." - **Eric Hémar, CEO of ID Logistics Group.**

ABOUT LOGISTICS :

ID Logistics, led by Eric Hémar, is an international contract logistics group with a turnover of €2.5 billion in 2022. ID Logistics operates 375 sites in 18 countries representing more than 8 million square meters of warehouses in Europe, America, Asia and Africa, with 30,000 employees. With a balanced customer portfolio between retail, e-commerce and consumer goods, ID Logistics is characterized by offers involving a high level of technology. Developing a social and environmental approach through numerous original projects since its creation in 2001, the Group is today resolutely committed to an ambitious CSR policy. ID Logistics shares are listed on the regulated market of Euronext Paris, compartment A (ISIN code: FR0010929125, Ticker: IDL).
