## ID LOGISTICS STRENGTHENS ITS PARTNERSHIP WITH METRO AND OPENS A NEW TRI-TEMPERATURE DELIVERY DEPOT IN LA BRÈDE (33)

A few weeks after the inauguration of a first site in Cholet (49), ID Logistics, the international leader in contract logistics, is continuing its collaboration with METRO, a leading player in food distribution for professionals, with a new delivery depot in La Brède, near Bordeaux. This site consolidates the system deployed in the Grand Ouest to meet the growing needs of the food industry, while strengthening METRO's presence in a region with strong economic and gastronomic potential.

### A DEPOT AT THE HEART OF LOCAL SUPPLY

Opened in March 2025, the La Brède site ensures direct distribution to restaurateurs and food professionals throughout the south-west flank of the country and is fully in line with METRO's proximity strategy. Designed to ensure maximum operational efficiency, this 16,933m<sup>2</sup> site optimizes delivery routes and ensures an agile and reliable service.

### TRI-TEMPERATURE LOGISTICS AT THE SERVICE OF CATERING PROFESSIONALS

Designed to accommodate fresh, dry and frozen products, the site offers multi-temperature management, adapted to the specificities of foodstuffs. Among the references stocked: seafood, butchery or grocery products.

ID Logistics' teams, trained in health requirements and good business practices, ensure the reception, storage and preparation of orders, in compliance with safety and quality standards.

## AN EXPRESS DELIVERY SERVICE TO MEET PEAKS IN ACTIVITY

A notable feature of the site is its ability to manage orders at the end of the day, for preparation in the evening and at night and delivery the next morning, directly to restaurants. This logistical agility is essential, especially in the summer, in high-traffic areas such as the Arcachon basin, for example.

Nearly 87,000 orders are expected in 2025, with operational activity 6 days a week. The site already employs 70 people, with a ramp-up planned for 2030, to support the growth of the sector.

## A SUSTAINABLE PARTNERSHIP FOR A HIGH-PERFORMANCE AND LOCAL SUPPLY CHAIN

With this new location, ID Logistics confirms its ability to build tailor-made solutions, adapted to the challenges of agility, quality of service and territoriality specific to the professional catering sector.

This second site illustrates METRO's renewed confidence in ID Logistics' expertise and testifies to a common ambition: to deploy a high-performance, sustainable supply chain that is as close as possible to customer needs.

*"This new site perfectly illustrates our ambition to offer responsive and efficient logistics solutions, ever closer to the needs of our customers. METRO's trust is a strong mark of recognition of our know-how and our commitment in the field" - Eric HEMAR, Chairman of ID Logistics.*

### ABOUT ID LOGISTICS:

ID Logistics, headed by Eric Hémar, is an international contract logistics group with revenues of €3.3 billion in 2024. ID Logistics manages nearly 450 sites in 18 countries, representing more than 9 million m<sup>2</sup> operated in Europe, America, Asia and Africa, with 42,000 employees.

With a customer portfolio balanced between distribution, e-commerce and consumer goods, ID Logistics is characterized by offers involving a high level of technology. Since its creation in 2001, the Group has developed a social and environmental approach through a number of original projects and is now firmly committed to an ambitious CSR policy. ID Logistics shares are listed on the Euronext regulated market in Paris and are included in the SBF 120 index (ISIN code: FR0010929125, Mnemo: IDL).
