ID LOGISTICS STRENGTHENS ITS PARTNERSHIP WITH PANZANI AND OPENS A NEW SITE IN VILLENEUVE-LA-GUYARD (89)

Panzani, a major player in the French agri-food market, has chosen ID Logistics, an international leader in contract logistics, to manage its new site in Villeneuve-la-Guyard (89). The latter, operational since March 2025, aims to optimize Panzani's logistics and transport activities for the entire northern half of France.

NEW LOGISTICS LOCATION : PANZANI STRENGTHENS ITS SYSTEM WITH ID LOGISTICS

In order to support the reorganization of its logistics, Panzani has decided to move its operations from the Les Mureaux site, in Île-de-France, to a new site located in Villeneuve-la-Guyard, in Bourgogne-Franche-Comté, entirely designed and managed by ID Logistics. This new warehouse plays a key role in the distribution of Panzani products throughout the northern half of France and complements the brand's industrial organization, which is based on production plants located in the north and south of the country. Activities began in March 2025, marking a major milestone in Panzani's logistics transformation.

A NEW WAREHOUSE FOR MORE EFFICIENT LOGISTICS

The new warehouse in Villeneuve-la-Guyard, with a densified and optimised storage capacity, spread over an area of 41,000 m², including 25,000 m² operated by Panzani, is dedicated to the reception, preparation and dispatch of Panzani products. It is planned to process more than 500,000 pallets per year, including pasta and sauces.

The orders, prepared with different types of products, are shipped to the warehouses of mass distribution players as well as to collective catering services.

Orgon, May 2025

ID Logistics relies on several technologies to guarantee a high level of quality in order picking, including:

- Free Scan: an automated barcode scanning system integrated into the trolleys that facilitates the work of the order picker thanks to better ergonomics and increased safety.
- Easy check in: a solution for digitising incoming flows with the aim of optimizing reception operations and making heavy vehicle traffic more fluid.

A SITE COMMITTED TO A REAL ENVIRONMENTAL APPROACH

The site, which is BREEAM Excellent certified, reflects Panzani's commitment to the efficiency and sustainability of its logistics operations. Designed to be energy-efficient, the building is equipped with an ultra-precise controlled temperature, to guarantee optimal storage conditions. It also includes innovative solutions such as motion sensor LEDs, and photovoltaic panels covering the entire roof to limit outdoor energy consumption are also planned before the end of 2025.

Together with ID Logistics, Panzani is working to reduce its carbon footprint by developing projects combining rail and road, and by optimising truck fill rates, in order to reduce transport-related emissions.

A STRONG COMMITMENT TO EMPLOYEE TRAINING

About fifty employees will work at the Villeneuve-la-Guyard site, all trained by ID Logistics in the specificities of the customer's logistics operations, such as the handling of double pallets at height, for example. Indeed, the forklift drivers in charge of this handling benefit from initial training and support during their skills development in order to meet the requirements of the activity. The order pickers, on the other hand, carry out the detailed preparation of complete packages. Co-packing operations are also carried out on site to respond to Panzani's promotional campaigns.

ABOUT ID LOGISTICS :

ID Logistics, headed by Eric Hémar, is an international contract logistics group with revenues of €3.3 billion in 2024. ID Logistics manages nearly 450 sites in 18 countries, representing more than 9 million m² operated in Europe, America, Asia and Africa, with 42,000 employees.

With a customer portfolio balanced between distribution, e-commerce and consumer goods, ID Logistics is characterized by offers involving a high level of technology. Since its creation in 2001, the Group has developed a social and environmental approach through a number of original projects and is now firmly committed to an ambitious CSR policy. ID Logistics shares are listed on the Euronext regulated market in Paris and are included in the SBF 120 index (ISIN code: FR0010929125, Mnemo: IDL).

ABOUT PANZANI :

Panzani is the leading French pasta manufacturer. This is the true story of a benevolent brand created in 1950 by a passionate Italian, Giovanni Panzani, who became Jean, and helped to introduce the French to the pleasures of pasta. Today, the brand continues to perpetuate its know-how as a semolina and pasta maker, providing consumers with high-quality pasta and sauces that are accessible to all. Because "Pasta and sauces yes, but Panzani."
