ID LOGISTICS UK OPENS ITS SECOND SITE AND ACCELERATES ITS Foothold IN THE UK

ID Logistics UK opens a second logistics site in the UK, in Leeds, marking a new stage in its development. With 117,800 m² of warehouse space now in operation, the Group is strengthening its national presence. After a successful launch in Northampton in 2023, ID Logistics confirms its ability to support the biggest names in e-commerce, fashion and consumer goods thanks to an agile, sustainable and efficient logistics model.

A SECOND SITE IN LEEDS

ID Logistics UK is opening its second logistics site in the UK in the third quarter of 2025, in Leeds, in the North of England. This new 52,000 m² warehouse has been designed to support an international player in the e-commerce sector. The site, designed to meet the highest operational standards, will combine automation, environmental excellence and high value-added services. As soon as it opens, it will create 250 jobs with a rapid ramp-up on high volumes, illustrating the market's confidence in the ID Logistics model: speed of deployment, operational efficiency, and industrial support. This new location marks a strategic step in the Group's expansion in the United Kingdom.

NORTHAMPTON: A SUCCESSFUL FIRST ESTABLISHMENT

Since June 2023, ID Logistics UK has been operating a 65,800 m² site in Northampton, in the heart of the British logistics "Golden Triangle". This latest-generation warehouse is dedicated to the management of omnichannel returns for a global textile player, with a high level of requirements in terms of quality, deadlines and traceability.

Orgon, June 2025

This site, leased for 10 years, illustrates the Group's know-how in reverse logistics, and now serves as a model that can be duplicated for other projects to come.

ZALANDO UK CHOOSES ID LOGISTICS FOR RETURNS

At the beginning of 2025, Zalando UK awarded ID Logistics the complete management of its returns for the UK market. This operation is also based in Northampton and covers sorting, quality control, repackaging of items and their rapid reintegration into stocks within 24 to 48 hours. This contract reinforces ID Logistics UK's position as an expert in reverse logistics in the online fashion sector with agile, traceable and perfectly scalable processes.

AN AMBITIOUS EXPANSION STRATEGY FOR 2028

With these two platforms totalling 117,800 m², ID Logistics UK implements a multi-site logistics scheme for agility, performance and customer proximity. The 2024–2028 development plan provides for a rapid ramp-up of activity serving major retail, e-commerce and FMCG manufacturers in the United Kingdom.

"ID Logistics UK is taking a step forward. These projects illustrate our ability to build integrated, adaptable and sustainable solutions that are perfectly aligned with our customers' business challenges. We are ready to go even further"

- **Stuart Evans, Managing Director of ID Logistics UK.**

ABOUT ID LOGISTICS:

ID Logistics, headed by Eric Hémar, is an international contract logistics group with revenues of €3.3 billion in 2024. ID Logistics manages nearly 450 sites in 18 countries, representing more than 9 million m² operated in Europe, America, Asia and Africa, with 42,000 employees.

With a customer portfolio balanced between distribution, e-commerce and consumer goods, ID Logistics is characterized by offers involving a high level of technology. Since its creation in 2001, the Group has developed a social and environmental approach through a number of original projects and is now firmly committed to an ambitious CSR policy. ID Logistics shares are listed on the Euronext regulated market in Paris and are included in the SBF 120 index (ISIN code: FR0010929125, Mnemo: IDL).
