PRESS RELEASE

Orgon, October 2026

ID LOGISTICS STRENGTHENS ITS FOOTPRINT IN EUROPE'S LARGEST LOGISTICS MARKET WITH THE OPENING OF ITS 17TH SITE IN GERMANY

Present in Germany since 2013, ID Logistics has doubled its network in five years, growing from 8 sites in 2021 to 17 today. Over the same period, its workforce has increased by more than 70%, from 2,800 to 4,800 employees. This growth has been accompanied by the diversification of its contract logistics and transport expertise, with the development of new activities and specialised solutions. The latest illustration of this momentum is the opening in September of a new 35,000 m² centre dedicated to heavy and bulky goods.

@ID Logistics

A NETWORK THAT HAS DOUBLED IN FIVE YEARS

Since 2021, ID Logistics has strengthened its network across Germany. From 8 sites five years ago, the Group now operates 17 sites representing 910,000 m² of operational space and employing 4,800 people. These sites cover almost all of Germany's federal states.

A GROWING RANGE OF EXPERTISE

In Germany, ID Logistics supports customers in the retail, FMCG, e-commerce and cosmetics sectors. As it has grown, the Group has expanded its activities, from warehouse management and order preparation to sorting and, since 2024, last-mile delivery. At the same time, ID Logistics is developing its transport activities, with FTL, LTL and distribution solutions.

This diversification also extends to the types of products handled, from everyday consumer goods to products requiring specific storage and handling solutions, particularly heavy and bulky goods.

MORE THAN 100,000 M² DEDICATED TO XL LOGISTICS

ID Logistics has been developing its expertise in heavy and bulky goods logistics in Germany since 2018. In September 2026, the Group reached a new milestone with the opening of a 35,000 m² centre at Mittelweserpark in Lower Saxony, bringing the total area dedicated to this activity in the country to more than 100,000 m².

The new site comprises three buildings and can accommodate up to 7,000 oversized items weighing up to 180 kg. The teams handle order preparation and dispatch as well as cross-docking operations, with orders ready for dispatch within two hours of receipt and a maximum processing time of four hours for cross-docking flows.

To meet the specific handling requirements of large household appliances, sofas and leisure equipment, ID Logistics has invested in 40 material-handling vehicles, several of which have been specially designed for these operations. Once fully operational, the site will employ 150 people.

"The site has been designed to support strong volume growth. We are already seeing high demand, particularly for cross-docking activities. Thanks to short processing times and optimised workflows, we can significantly increase the volumes handled," **– Sergie Schiller, Head of XL at ID Logistics Germany.**

EXPERTISE SHARED ACROSS SITES

The new centre benefits from the experience gained in Göttingen, where ID Logistics has operated a site of around 60,000 m² specialising in heavy and bulky goods since 2018.

Before operations began at Mittelweserpark, part of the team completed a three-week training programme in Göttingen to familiarise themselves with the processes specific to XL logistics. This transfer of expertise supported the ramp-up of the new site.

"The development of ID Logistics in Germany is based on our ability to combine different areas of expertise and capitalise on the experience gained across our network. New projects benefit from the know-how developed at our sites and shared between our teams. This approach supports our growth and our ability to address increasingly diverse logistics needs," **– Robin Otto, Managing Director of ID Logistics Germany.**

ABOUT ID LOGISTICS:

ID Logistics, headed by Eric HÉMAR, is an international contract logistics Group with revenues of €3.7 billion in 2025. ID Logistics manages nearly 450 sites in 20 countries representing 10 million m² operated on all five continents with 55,000 employees. With a customer portfolio balanced between distribution, e-commerce, consumer goods, cosmetics and fashion, ID Logistics is characterized by offers involving a high level of technology. Since its creation in 2001, the Group has developed a social and environmental approach through a number of original projects, and is now firmly committed to an ambitious CSR policy. ID Logistics shares are listed on the Euronext regulated market in Paris and are included in the SBF 120 index (ISIN code: FR0010929125, Mnemo: IDL).
