ID LOGISTICS CREATES A HEALTHCARE-DEDICTED SUBSIDIARY IN SPAIN AND PORTUGAL AND STRENGTHENS ITS INVESTMENTS IN THE HEALTHCARE SECTOR

ID Logistics, an international contract logistics group, announces the creation of ID Logistics Healthcare, a new subsidiary dedicated to pharmaceutical and healthcare activities in Spain and Portugal.
The Group is therefore accelerating the development of its Healthcare activities through increased specialization of its expertise, infrastructure and operations.

Drawing on more than 20 years of experience alongside pharmaceutical laboratories, para-pharmacy players and medical device specialists, ID Logistics Healthcare manages healthcare product flows in an environment characterized by growing requirements in terms of traceability, security and temperature control.
In a market driven by growing healthcare needs and evolving pharmaceutical and para-pharmaceutical flows, ID Logistics also aims to strengthen the development of its Healthcare activities across the Group.
The Group is therefore deploying an integrated offering combining pharmaceutical logistics, temperature-controlled transportation and value-added services.

A SPECIALIZED ORGANISATION SERVING HEALTHCARE PLAYERS

ID Logistics Healthcare currently operates five specialized sites representing more than 70,000 sqm of certified warehouses in Spain and Portugal, operating in compliance with GDP and GMP standards, serving leading players in the pharmaceutical, dermocosmetics and consumer healthcare sectors.

The facilities ensure the storage and multi-channel distribution of pharmaceutical and healthcare products to hospitals, pharmacies, pharmaceutical wholesalers, para-pharmacy networks, specialized clinics and patients, under controlled ambient temperature (+15°C/+25°C), refrigerated conditions (+2°C/+8°C) or other specific temperature requirements.

The new subsidiary also provides value-added services such as secondary packaging, serialization, returns management, co-packing operations, as well as real-time flow management through validated and integrated WMS and TMS systems.

STRUCTURING INVESTMENTS TO SUPPORT SECTOR GROWTH

The Group is currently developing a new 71,000 sqm logistics campus in Tórtola de Henares, in the Guadalajara region. The site will include secured areas dedicated to sensitive and psychotropic products, temperature-controlled areas, as well as automated solutions, including an AutoStore system for unit picking.

The campus will notably feature 115,000 pallet locations, 68 loading docks and a power supply based on 100% clean energy. First operations are scheduled to start by the end of 2026.

ID Logistics is also continuing its expansion in the Canary Islands with the construction of a new 13,300 sqm warehouse located in the El Goro logistics park, in Gran Canaria. This multi-client site, certified BREEAM Excellent, will include temperature-controlled pharmaceutical areas as well as high-security spaces dedicated to sensitive products.

AN INTEGRATED HEALTHCARE TRANSPORT OFFERING

ID Logistics Healthcare relies on its specialized transport network covering the entire Iberian Peninsula and managing more than 3,500 daily shipments.

The organization combines temperature-controlled transportation, cold chain solutions, traceability tools and services tailored to the requirements of Healthcare laboratories and distributors.

A STRONG AMBITION IN THE HEALTHCARE SECTOR

With this new subsidiary, ID Logistics confirms its ambition to further develop its Healthcare activities through specialized, reliable logistics solutions fully compliant with pharmaceutical market requirements.

« With ID Logistics Healthcare, we are strengthening our ability to support healthcare players with specialized logistics solutions and infrastructures tailored to the requirements of the pharmaceutical sector. This new organization marks an important milestone in the development of our Healthcare activities in Spain and Portugal. » **- Jérôme Jacek, Managing Director of ID Logistics Iberia**.
