

## ID Logistics voted “Logistics Operator of the Year” in Poland

**Cavaillon, 12 December 2016** – ID Logistics, a French leading contract logistics player, has won the “Logistics Operator of the Year” award for 2016 in Poland. It received this highly prestigious award at a ceremony held by the Eurologistics trade magazine at the Sofitel Victoria in Warsaw on 8 December 2016.

For the past 15 years, this annual award has been bestowed on logistics operators that have made a significant contribution to the sector’s expansion and to improved supply chain management in Poland. It reflects the results of an independent firm’s satisfaction survey of logistics and haulage companies’ customers active in the Polish market.

ID Logistics gained this award by rolling out innovative supply chain solutions in Poland to meet the highest security, quality assurance and service reliability standards.

*“We are delighted to have been chosen as the Logistics Operator of the Year”, said Yann Belgy, ID Logistics’ Managing Director in Poland. “First of all, I would like to thank our clients who placed their trust in us when we started up in 2008 and also those who came on board more recently. Logistics plays an increasingly important role in the strategy of our clients, who become fully-fledged partners for the long term. This award also represents a reward for our teams, who work hard every day to provide customers with innovative, custom-made services that boost their competitiveness”.*

ID Logistics Poland was founded in 2008 and currently manages 7 sites with close to 200,000 sqm in space and 1,300 employees for clients in various sectors: Retail (Carrefour, Auchan), FMCG (Lindt & Sprungli, Refresco, Mieszko) and Automotive (Sogefi, Norauto). The rapid development of ID Logistics in this high-potential country is based in particular on the implementation of innovative and customized solutions for its clients throughout their supply chain, from contract logistics to value-added services such as Co-packing and international distribution.
